Xopero ONE Backup & Recovery with Wasabi

Xopero ONE for the Best Backup and Data Protection

Xopero ONE Backup & Recovery is an all-in-one backup and disaster recovery software that easily protects critical company data, including endpoints, servers, virtual machines, Microsoft 365, as well as GitHub, Bitbucket, and GitLab environments of any size. It's compatible with nearly every storage hardware as well as Wasabi, and can be used within minutes with no additional investment needed. Thanks to a web-based central management console and user-friendly interface, managing data protection is fast, efficient, and effortless.

By combining Xopero ONE with Wasabi Hot Cloud Storage users can reduce administrative overhead and eliminate downtime and revenue loss associated with backup and cloud data management.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Xopero and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.

GitProtect.io for GitHub, Bitbucket and GitLab backup

Automatic, daily repository and metadata backup - move into a maintenance-free GitHub, Bitbucket, GitLab data protection. Simply add your account (one or more) to instantly protect your data. Any new repo will be automatically included in your backup plan and scheduled. And in the event of data loss you can recover data using granular recovery or DR, without incurring additional egress costs due to Wasabi's free egress policy.

KEY FEATURES

- Powerful, data-driven dashboards for precise monitoring
- Fast and reliable plan-based backup & disaster recovery
- Point-in-time restore: granular, Any2Any, and BMR
- Multi-level central management

BENEFITS

- Reduce administrative overhead, eliminate downtime and revenue loss
- Meet security compliance needs with a reliable backup & recovery and safest cloud storage
- No Single-Point-of-Failure for your uninterrupted business operations
- Agile management for your accounts, admins, and privileges your organization need

Backup for Microsoft Office 365

Achieve reliable and flexible protection of your Microsoft 365 suite in less than one minute - on-premise or in the cloud. Ensure your Mailbox, OneDrive, Contact, and Calendar data are not only safely stored but also encrypted, and instantly accessible when stored in Wasabi's high-performance "hot" cloud storage.

Backup for VMware

Complete data protection of your VMware vCenter-managed and standalone ESXi workloads that let you enjoy all the benefits of virtualization without any interruptions. Get started within minutes and take advantage of all enterprise-class features in Xopero ONE's user-friendly central management console.
