

Xopero ONE | The Most Powerful Mobile Backup for Android and iOS

Automatic Mobile Backup for Your Digital Life.

Xopero ONE offers the ultimate mobile backup solution to safeguard your digital data from accidental deletion, device loss, or cyber threats. With seamless automation, you can effortlessly secure all your critical files.

What you can backup:

-  Contacts
-  Photos
-  Text messages
-  Video files
-  Audio files
-  Calendar

Supported platforms:

Android 10+
iOS 15+

Easy Data Recovery & Device Migration

Experience the fastest and most convenient recovery process with Xopero ONE:

- Restore data instantly whenever needed.
- Recover all data at once or selectively retrieve specific files.
- Simplify device migration—switching to a new phone has never been easier.

Unparalleled Security with Private Encryption Key

Your data's security is our priority. Xopero ONE ensures:

- AES 256-based private encryption for maximum security.
- Full control over your encrypted backups, making them accessible only to you.

Key Features of Xopero ONE Mobile Backup

Automatic backup to the cloud – Your data is always safe with real-time backups running seamlessly in the background.

Protection against theft and cyberattacks – Keep your data secure even if your device is lost or stolen.

Customizable retention & backup frequency – Set backup schedules and retention periods on Android devices to suit your needs.

AES-based private encryption key – Industry-standard encryption ensures only you can access your backups.

Backup only via WiFi option – Save mobile data by enabling backups only on WiFi.

Agile recovery options – Restore entire backups or select specific files with ease.

Seamless device migration – Transfer all your data effortlessly when switching devices.

Well-secured cloud storage – upload your backups to the highly protected Xopero Cloud.

User-friendly interface – Simple navigation makes backup management easy for everyone.

Cross-platform compatibility – Works with both Android and iOS for a unified experience.

Version history & rollback – Restore previous file versions if needed.

24/7 data accessibility – Access and restore backups anytime.

Ensure the safety of your digital world with Xopero ONE. The smart way to back up your mobile data!
